Blocks and/or stands

Hardwood 6"x8"x15" blocks and 2-4 boat stands are preferred. Please check your size of boat on the list below to ensure you have enough blocks and stands upon delivery:

15'- 25': 25 blocks OR 2 stands and 13 blocks

26'-30': 25 blocks OR 2 stands and 10 blocks

31'-36': 30 blocks OR 4 stands and 10 blocks

37'+: 30 blocks OR 4 stands and 15 blocks

Concrete blocks can be used however they do have the potential to break.

Railroad ties are not ideal due to inconsistency in size and tendency to split and rot. Pressure treated 6"x6"x24" blocks are acceptable; however please ensure that you have 40% more available than the quantities listed above.

Please have an assortment of scrap wood, plywood, carpet, etc. for minor adjustments. This allows us to ensure your boat is blocked completely securely and level.

We do not carry blocks and stands with us. However, if necessary we can supply them for a fee (order basis only). Stands must be ordered 30 days prior to shipping. Prices may vary.
